SUMMARY

1 year of experience as an Angular Developer driven by great challenges and learning opportunities. Analytical team player with strong experience in Web Application Development. Seeking for a challenging position as a Frontend Developer.

KEY SKILLS

- Angular, AngularJS, HTML, CSS
- Python, Core Java, AWS (Ec2, Lambda, S3, EMR etc..)
- MySQL, MongoDB, GIT

WORK EXPERIENCE

ZUWAGON TECHNOLOGIES | SOFTWARE ENGINEER
Feb 2021 - Present – Indore, India

- Develop web applications utilizing HTML5, CSS, and AngularJS and integrated Restful API's.
- Good experience in developing Single Page Applications using AngularJS.

PROJECTS

1. COMPLETE SCHOOL ERP | E-Commerce

Zuwagon offers comprehensive software to school entities that incorporate LMS, ERP, and Bus Tracking solutions which help in managing Live Classes, Attendance, Results, Timetable, Fees Management, Assignments, etc from a solitary platform. Zuwagon provides constant support in assisting schools to manage their online schooling systems and alleviating their teaching experience.

- Worked as an Angular Developer
- Used AngularJS as a framework to create a Single Page Application which can bind data to specific views.
- Thoroughly tested The Complete School ERP and its Various Modules along with test cases.
- Used Github for version control.
- Connected with clients to understand requirements clearly and implemented in real time.

Tech Stack Used: Angular, Postman, Github.

2. DATA FILTER | POC

Created a Sample POC Project on AWS and Python using different components of AWS and Python for learning purpose. AWS Kinesis, randomly creates data, and then filter the data using lambda function using Python and pass it to different S3 buckets i.e., Bad and Good bucket. Once received data in S3 bucket then transfer it to RedShift.

Tech Stack Used: AWS, Python.
